#### **Notes:**

#### Collection

The Rosskopf + Partner Collection is specially tuned to the requirements of our customers. The colours that are marked in bold print in our overview (Colour Name) are always available in stock so that we can provide you the best possible production and delivery times.

Since dark and matte colours show dust and dirt more easily than light and textured colours, they require more frequent cleaning.

# Notes:

### Sortiment

All colours are available in the specified thicknesses.

<u>The Rosskopf + Partner Collection</u> is specially tuned to the requirements of our customers. The colours that are marked in bold print in our overview (<u>Colour Name</u>) are always available in stock so that we can provide you the best possible production and delivery times.

Since dark and matte colours show dust and dirt more easily than light and textured colours, they require more frequent cleaning.

- These colours are more susceptible to scratches. They are therefore more suitable for less stressed surfaces, specific contrasts or inlaying.
- $\Delta$  Because of their UV-resistance, these 12 HI-MACS® colours are especially suitable for outdoor applications. Colour fastness is guaranteed for 5 years with a tolerance depending on the colour of Delta E3 (labelled with  $\Delta$  E3) to Delta E4 (labelled with  $\Delta$  E4).

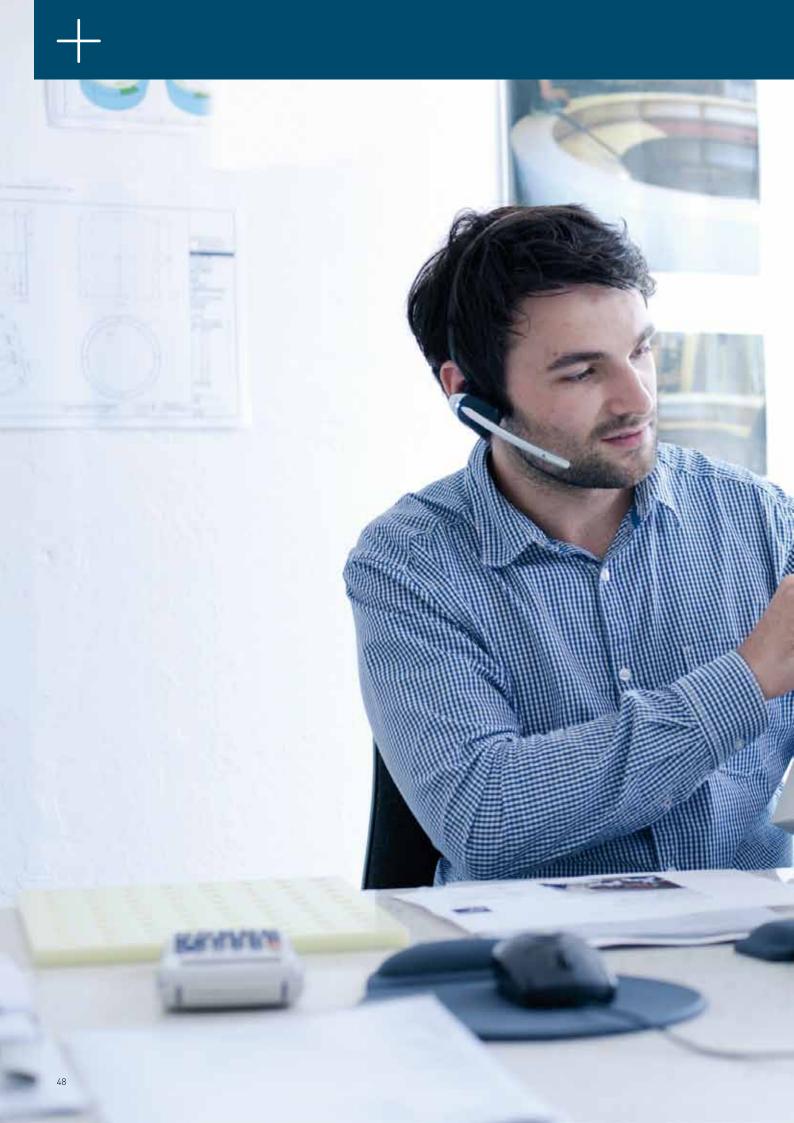

### **Sheet Sizes**

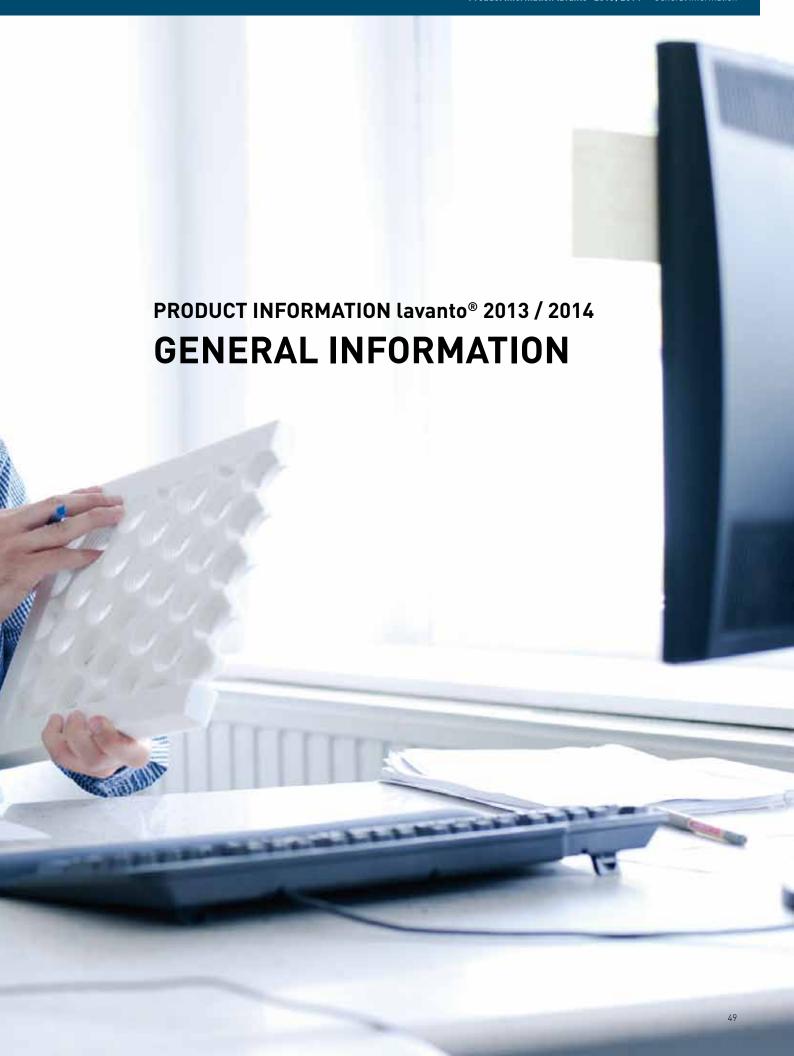

Solid surface based sheets are available in the following material thicknesses and sizes:

Thickness 3 mm – 3000 x 930 mm Thickness 6 mm – 2490 x 760 mm Thickness 9 mm – 3680 x 760 mm Thickness 12 mm – 3680 x 760 mm

# **Delivery Conditions**

# DELIVERY AND CONDITIONS FOR MOULDED PARTS MADE OF

### **SOLID SURFACE MATERIAL**

The production of lavanto® moulded parts commences upon receipt of orders; the shipment to be made within 3-10 business days. The delivery time for lavanto® brand bathtubs is five weeks.

Publication of this list supersedes and renders all previous price lists invalid. We reserve the right to correct errors and make technical amendments.

Our terms and conditions apply. You can view these on the  $\ensuremath{\mathsf{Internet}}$  under

www.rosskopf-partner.com/agb.

# Warranty - lavanto®

#### **Limited Warranty**

According to the conditions stated below, Rosskopf + Partner AG guarantees all lavanto® products for a period of two years to be free from defects in material and workmanship.

### **Warranty Conditions**

The buyer is responsible for checking all goods for defects upon receipt without delay and, in any case, before further processing or assembly. Any defects are to be reported immediately. Any claims in connection with further processing or assembly procedures by the buyer or for any additional obvious defects that are not reported within 14 days of delivery cannot be considered or accepted. Defective products will be replaced immediately.

Warranty claims received by us after processing and assembly may possibly be for other causes and then attributed to lavanto® products. Additional processing and/or assembly costs, replacement costs or other costs incurred are not included in this warranty and will not be considered.

Damage caused by improper use or maintenance, in particular by ignoring the instructions for care and use of lavanto® products, is not covered by the warranty.

# Instructions for Use - lavanto®

With lavanto® you have purchased a state-of-the-art product from Rosskopf + Partner. Our lavanto® series products are made of quality materials such as solid surface material; they are very easy to maintain and extremely durable. In order for you to permanently enjoy the products from our company, please follow these instructions:

- When you pour boiling or hot liquids into a lavanto® product, please run cold water into it at the same time.
- Do not place hot pots and pans unprotected onto the surface.
- If your lavanto® product comes into contact with bleach, please do not allow it to remain longer than 5 minutes on the surface. After removing it, we recommend that you clean the surface with general purpose cleaner and then rinse it thoroughly with clean water.
- Do not use harsh chemicals on your lavanto<sup>®</sup> product and do not forcefully attempt to remove dirt or stains from the surface.
- Rinse the surface immediately with clean water when strong staining liquids (for example, coffee, tea, red wine, etc.) or corrosive chemicals (such as acids, disinfectants with high-percentage ethanol content or colouring / hair dye) come into contact with the product.
- Prevent fire (such as burning cigarettes) from contacting your lavanto<sup>®</sup> product.
- Please understand that Rosskopf + Partner AG cannot assume responsibility in the warranty for damages caused by not observing these instructions.
